

# Integrated High Frequency Generator Veterinary System

This fully-integrated table, tubestand and high frequency generator system requires as little as 13 square feet of floor space. Grid cabinet and tubestand easily interlock for automatic alignment. Molded, rust-proof tray.

## SPECIFICATIONS

Space requirements	Column height: 86.0" Table top: 56" wide, 34" deep
Mounting	Bolts to floor as desired. HV transformer sits on shelf in table base.
Electrical access	All cables enter rear of table/control. Front cover of table base/control removes for internal access.

## ELECTRICAL REQUIREMENTS

See TDS020 for generator requirements.
The generator provides 24 VAC and 24 VDC supply voltages for table locks and collimation.
