

J700 DFMT SPARE PART KIT

Summit Industries has made an improvement to the **J700 DFMT Tubestand cable management and mounting system.**

If you are seeing cable wear or fraying caused by contact with the metal bracket, this upgraded sleeve kit is designed to resolve that issue by improving cable protection and routing.

Upgrade Details:

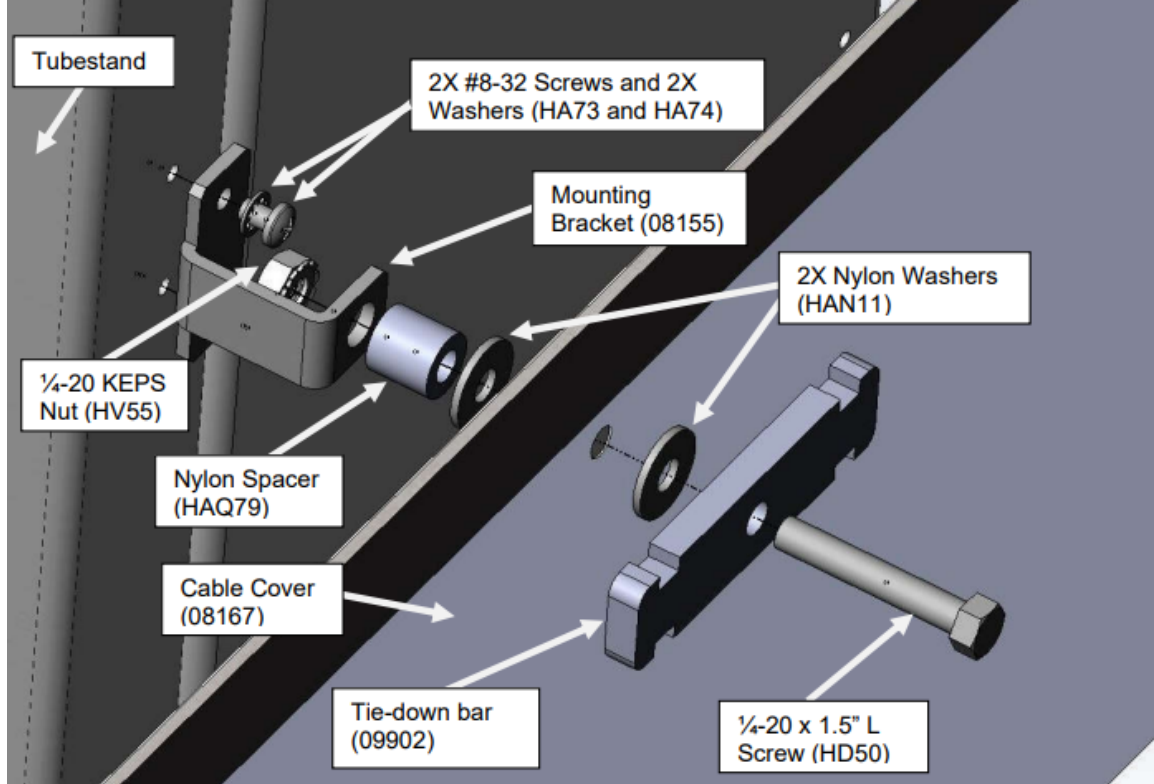

- Helps prevent cable damage from bracket contact
- Improved cable management and mounting design
- Available for existing J700 DFMT systems

Service Note: If you are ever experiencing a kV imbalance, always inspect the high-voltage cables as part of your troubleshooting process.

Summit Part Number: 09996

Description: KIT, UPGRADE, J700 SLEEVE / CABLE MOUNT

To place an order or for questions regarding compatibility, contact the Summit Operations team at tscalls@summitindustries.net
